

Using Geographical Information Systems (G.I.S.)

Meeting KS2 Geography requirements for digital mapping/computing, fieldwork and geospatial skills.

Brendan is a Specialist Leader of Education for Geography and has worked with our schools on numerous occasions both with teachers and children. He is a secondary teacher, an RGS Chartered Geographer and an Associate Lecturer at St Mary's

G.I.S. enhances students' capacity to understand, analyse and evaluate spatial data and develops valuable new skills linked to ICT and numeracy. The session topics will include:

- What is G.I.S.?
- How to use Digimap for Schools
- How to use ArcGIS Online (freely available to all UK schools since 2017)
- How to use G.I.S. to collect data for fieldwork in school grounds or on school trips (e.g. use of Survey123; Snap2Map)
- How to use other free online G.I.S. resources.

Tuesday 2nd June from 3.30pm—5.30pm

Location: St Joseph's Catholic Primary School, Epsom

Contact: Paradigm@stjosephs-epsom.surrey.sch.uk or book online at

www.stjosephs-epsom.surrey.sch.uk
