

St Joseph's Catholic Primary School

Policy and Strategy for English as an Additional Language

Updated September 2023 by AF

Our Mission

All that we do at St Joseph's is shaped by our commitment to our Faith. The choices we make and the expectations we nurture in our children emanate from a guiding desire to live our lives according to gospel values. In the words of our Mission Statement, written by the children: *We are God's family, here to learn and try our best.*

- *God is at the heart of everything. Prayer is behind us in all that we do.*
- *As friends of Jesus, we treat others with respect, as we would wish to be treated ourselves.*
- *We want everyone to be the best person they can be.*
- *We are all amazing in our own way.*
- *We look after the wonderful world that God created for us.*

Our Mission Statement is reflected in our provision for the extra needs of children with English as an Additional Language (EAL):

- *We respond quickly to ensure sustained progress towards fluency for all children to achieve their potential in a timely fashion.*
- *We celebrate diverse cultures and the wealth of languages which make up our school.*

Our Vision

Almost half of our children hear, speak and/or understand languages other than English outside school in their families and wider communities. With varying degrees of fluency in English, these children can have an learning needs which this policy aims to address.

Our vision is to bring all children towards mastery in all curriculum areas. Any barriers created by language acquisition need to be broken down in order to provide full and equal access to all. Specifically, we

- value the first language and culture.
- promote equal opportunities for all pupils for whom English is an additional language.
- deliver an ambitious curriculum and ensure EAL pupils reach their full potential.
- monitor the progress of EAL children and respond to identified needs.
- support EAL children who are at risk of under-achieving because of their stage in English language acquisition

Our Strategy for Children with EAL

When children start at St. Joseph's, teachers and the leader for EAL assess where we believe children to be on the journey towards fluency in English. Using national descriptors, children are grouped. On the basis, we intervene to address gaps in English language acquisition.

For early language learners we support parents with the journey towards fluency of English for their child. We advise parents to continue to regularly speak and read to their child in the mother tongue to demonstrate the importance of that to the child and to encourage a

broader understanding of the structure of language and patterns of communication. Children are adaptable and most learn quickly.

Current Profile at St Joseph's (September 2023)

Stage	R	1	2	3	4	5	6	Total		% of all EAL	National Profile (DfE 2018)
A	1								A	0.5%	6%
B	7								B	3%	11%
C	8	8	5	4	4	1	1		C	14%	21%
D	13	7	9	10	13	13	16		D	38%	25%
E	4	2	9	10	21	23	20		E	43%	51% (primary)
Total	33	17	23	24	38	37	37	209			

At St Joseph's 48% of children have English as an Additional Language (September 2023) compared to 19% nationally (2018)

A:	New to English:	May use first language for learning and other purposes. May remain completely silent in the classroom. May be copying/repeating some words or phrases. May understand some everyday expressions in English but may have minimal or no literacy in English. Needs a considerable amount of EAL support.
B:	Early acquisition:	May follow day-to-day social communication in English and participate in learning activities with support. Beginning to use spoken English for social purposes. May understand simple instructions and can follow narrative/accounts with visual support. May have developed some skills in reading and writing. May have become familiar with some subject specific vocabulary. Still needs a significant amount of EAL support to access the curriculum.
C:	Developing competence:	May participate in learning activities with increasing independence. Able to express self orally in English, but structural inaccuracies are still apparent. Literacy will require ongoing support, particularly for understanding text and writing. May be able to follow abstract concepts and more complex written English. Requires ongoing EAL support to access the curriculum fully.
D:	Competent:	Oral English will be developing well, enabling successful engagement in activities across the curriculum. Can read and understand a wide variety of texts. Written English may lack complexity and contain occasional evidence of errors in structure. Needs some support to access subtle nuances of meaning, to refine English usage, and to develop abstract vocabulary. Needs some/occasional EAL support to access complex curriculum material and tasks.
E:	Fluent:	Can operate across the curriculum to a level of competence equivalent to that of a pupil who uses English as his/her first language. Operates without EAL support across the curriculum.
N:	Not Yet Assessed is also available for use where the school has not yet had time to assess proficiency.	

Provision for Children with EAL

		Intervention
A	New to English	One to one or small group work intervention, several times per week, focussing on early language skills. Led by the EAL Leader or a specialist TA.
B	Early acquisition	Small group intervention several times per week, further developing language skills and vocabulary. Led by the EAL Leader or a specialist TA.
C	Developing competence	Small group several times per week focusing on higher order language skills intervention. Led by the EAL Leader or a specialist TA.
D	Competent	Monitored by the class teacher. Close focus on year group vocabulary acquisition, targeting not just the words but also the meanings on a weekly basis.
E	Fluent	Monitored to ensure that language continues to not present a barrier to learning. If, at any point, we identify any gaps in attainment for E group children, which might be accounted for by an EAL issue, we intervene and potentially move the child to group D.

Reception Classes

For our youngest learners, we aim to address language acquisition challenges early. Small group and one to one interventions go hand in hand with the NELI (Nuffield Early Language Intervention) programme which we follow. In the Early Years area we:

- Provide a range of opportunities for children to engage in speaking and listening activities in English with peers and adults, such as storytelling and role-play.
- Provide a range of learning through play opportunities for EAL children to develop their social communication skills.
- Expect children to learn their phonics and make good progress with early reading alongside their peers.
- Provide support to expand children's vocabulary in English.
- Specifically, staff provide strong models of language for the children.

Towards Mastery of the English Language

Mastery of the English Language takes time. Our intention is to do all we can to prepare children for their next steps in education when they transfer to secondary school.

For some children there will be progress still to make, but we consider that we do our job well and our outcomes indicate that the gap between children with EAL and those without is narrowed by the time they leave us.

In 2023, in all areas, Our EAL group out-performed the non-EAL group, and the cohort as a whole in all areas except Maths where, even though the percentage of children achieving the expected standard was slightly lower than the non-EAL percentage, the EAL's children standardised score was higher.

Our EAL students out-performed the national picture of EAL and also of all children nationally.

	St Joseph's all students (64)		St Joseph's EAL students (32)		St Joseph's non - EAL students (32)		National EAL	National non-EAL
	Met expected	Scaled Score	Met expected	Scaled Score	Met expected	Scaled Score	Met expected	Met expected
Reading	92%	110	100%	109	84%	108	69%	74%
Writing	86%		91%		81%		71%	72%
Maths	88%	108	84%	109	91%	107	77%	72%
